Joint Mission Notification: India

Dear CTF Trust Fund Committee Members,

At its June 2011 meeting in Cape Town, the Trust Fund Committee reviewed the request from the Government of India to initiate a joint mission to prepare an investment plan for India and agrees that India and the MDBs may proceed to prepare an investment plan with a view to submitting it to the Trust Fund Committee for endorsement.

In accordance with the request from the Government of India and the decision by the Trust Fund Committee, a joint mission will visit India between August 8-12, 2011. The objectives of the mission are to agree on: (i) the strategic outline of the investment plan and the strategic context for CTF funding for India; (ii) types of projects to be included in the investment plan submitted for CTF financing; and (iii) next steps for finalizing the investment plan. A meeting with other development partners working in India, including UN and bilateral agencies, as well as other key stakeholders is planned to ensure proper coordination with such partners.

Sincerely,
