CLIMATE INVESTMENT FUNDS

Investing in Renewable Energy for Development in Africa – Side Event

Wednesday, December 7, 2011

9:00 a.m. – 11:00 a.m.

Africa Pavilion

This side event will showcase the different renewable energy technologies that have been supported by the CIF and the progress that has been achieved by some African countries in developing and implementing their investment plans and projects. It will also provide an opportunity to share experiences and emerging lessons learned among CTF and SREP countries from Africa and other regions.

A panel of speakers from 3 African countries will discuss the CIF program in their country and will feature one or two renewable energy technologies targeted for deployment in their country with the support of the CIF. The panel speakers will be joined by representatives from countries in other regions who will share their experiences with their African counterparts.

Following the event – there will be a Loan Signing Event for the Ouarzazate I Concentrated Solar Power Project with the Government of Morocco.

Concentrated Solar Power

MOROCCO

An Early Mover on Concentrating Solar Energy
Excellence Amina Benkhadra, Minister of Energy,
Mines, Water and Environment

SOUTH AFRICA

Early experience implementing Concentrated
Solar Power Projects
Dr. Steve Lennon, Divisional Executive of
Corporate Services, Eskom

Geothermal Power

KENYA

Scaling up (and Speeding up) Geothermal
Energy Development
Mr. Caleb Indiatsi, Deputy Manager,
Geothermal Development Company

INDONESIA

Sharing Experiences and Lessons Learned on
Geothermal Energy Development
TBD

RE Mini-Grids

MALI

Solar Hybrid Mini-Grids for Rural Electrification
Mr. Alassane Agalassou, Director of Rural
Electrification

HONDURAS

Opportunities and Challenges for Mini-Grids in
Latin America
Mrs. Evelyn Bautista, Vice Minister of Finance,
Secretary of Finance
