**Comments from the Netherlands— Approval by Mail: SREP Ethiopia:
Geothermal Sector Strategy and Regulations**

Dear Patricia,

We are happy to see that the Ethiopian government demonstrates clear demand for the proposed work and gladly approve the proposed decision.

As in my previous email related to the Lighting Ethiopia proposal, we request lifting the confidentiality on this proposal.

In view of the many initiatives in the field of geothermal energy (ao the Global Geothermal Development Plan), it is important that this information is transparent and accessible to all relevant stakeholders.

Best regards, Frank

Frank van der Vleuten
