**[APPROVED BY MAIL]: HONDURAS: GRID-CONNECTED RE DEVELOPMENT SUPPORT-
TRANSMISSION (ADERC) (PHASE 1) (SREP)(IDB) -- XSREHN007A**

COMMENTS FROM UNITED KINGDOM

Dear Mafalda,

The UK is pleased to approve this project.

Our assumption is that the 940,000 tCO₂e target, mentioned in the MDB's response to Switzerland, is solely attributable to SREP finance (\$7m) rather than attributable to the wider funding (\$100m). Please inform us if this assumption is incorrect. We would request that the project team ensures when reporting results that they are consistent with the ICF guidelines.

Kind regards,

Simon
