Approval by mail: Revised Criteria and Template for the SREP set aside

Dear Patricia,

thank you for circulating the revised criteria and template for the SREP private sector set-aside.

We have two remarks regarding the criteria:

- The valuation of “innovative technology” is somewhat in contradiction with the SREP design document where it was specified that the technologies should be proven. This contradiction should be addressed in some way.
- We think the weighting of the (commercial) sustainability should be higher against the readiness. We suggest to weigh them with 15 points each.

Thank you for taking this into consideration.

Also many thanks to you and all your team for the great collaboration we had this year.

Merry Christmas and a Happy New Year to all.
