

Bonjour!

Last week, we shared with you St. Lucia's guide for filling out monitoring and reporting scorecards; we hope you found the guide helpful (thanks, St. Lucia!). This week, to show you just how much we love indicator scoring workshops, we'd like you to share *your* country's process for filling out scorecards.

### PRIZE OPPORTUNITY!:

- That's right, folks. This is the first official prize opportunity for the PPCR Results Community! The first community member to send us one or more of the items below will **win a prize at the 2014 Partnership Forum**. 😊
  - 1) Guide to your country's indicator scoring process (similar to St. Lucia)
  - 2) Photo from an in-country indicator scoring workshop
  - 3) Blog post or story about an in-country indicator scoring workshop

### Q&A:

- Last week, two of our community members asked us the following question:  
**Q:** *What is the main difference between the old PPCR monitoring and reporting toolkit and the updated PPCR monitoring and reporting toolkit?*

**A:** *Based on user feedback during the first monitoring and reporting round, we have made a few small changes:*

- 1) *We have added a few explanations to the toolkit to provide better clarity.*
- 2) *We have improved the design of the scorecards to allow countries to insert brief comments under each score. The content has remained the same.*
- 3) *We have updated the section of the scorecards which provide the opportunity to share lessons learned, for example, from scorecard one: "What have been the key successes when integrating climate change into national, including sector, planning?", and "What have been the key challenges and what opportunities for improvement do you see?"*

As always, don't hesitate to let us know if you have any questions! The answer might be useful for someone else in the community. And, if you're looking for more information on PPCR monitoring and reporting, just visit the [PPCR monitoring and reporting website \(https://www.climateinvestmentfunds.org/cif/measuring-results/ppcr-measuring-results\)](https://www.climateinvestmentfunds.org/cif/measuring-results/ppcr-measuring-results).

Thanks again for reading. **And don't forget to send us information about your indicator scoring workshops!**

Until next time. 😊

Hasta luego,

*Christine, Emmanuel, Shaanti, and Avril*

**Christine Roehrer**  
Senior Monitoring  
and Evaluation  
Specialist

**Emmanuel Kouadio**  
Monitoring and  
Evaluation Officer

**Shaanti Kapila**
