Comments from United Kingdom on Approval by Mail: Lao PDR: Smallholder Forestry Program (IFC)

Patricia/IFC colleagues,

Many thanks for your responses to our questions. We are content with the technical responses received and now happy to see this project approved and move forward.

In connection to our previous comments we look forward to further discussions with CIF AU and IFC to ensure that there is a sufficient level of detail provided on the substance of the project at this stage to enable approval whilst respecting client and commercial confidentiality.

Regards,

Ben Green
UK Department for International Development
