**Comments from United Kingdom on the Revised CTF Investment Plan for Colombia**

Dear Patricia / CIF Admin Unit

Please find attached comments on the revised CTF investment plans from the UK. We would like to thank those that gave presentations in Washington.

## Comments and questions on revised Country Investment Plans submitted to the Clean Technology Fund from the United Kingdom

### Colombia

- We note that learning will be derived from the experience related to a single RE plant and that this will enable the programme to address the barriers to renewable energy as identified in the IP. We would like the project team to elaborate on how this will be possible and why one plant is sufficient to achieve this learning.

- How does the project go beyond the scope of the CDM, given that there are already wind and other RE projects at comparable scale registered with the CDM?
