

Payoffs of a partnership model: Experiences from the CSP

Cathy Vaughan

International Research Institute for Climate & Society

Climate Services Partnership Secretariat

December 9, 2014

Climate Services Partnership

- Informal, interdisciplinary partnership (~2000 members) working to improve development and provision of climate services worldwide
- Created in 2011 at first International Conference on Climate Services in NY

Goals of the CSP

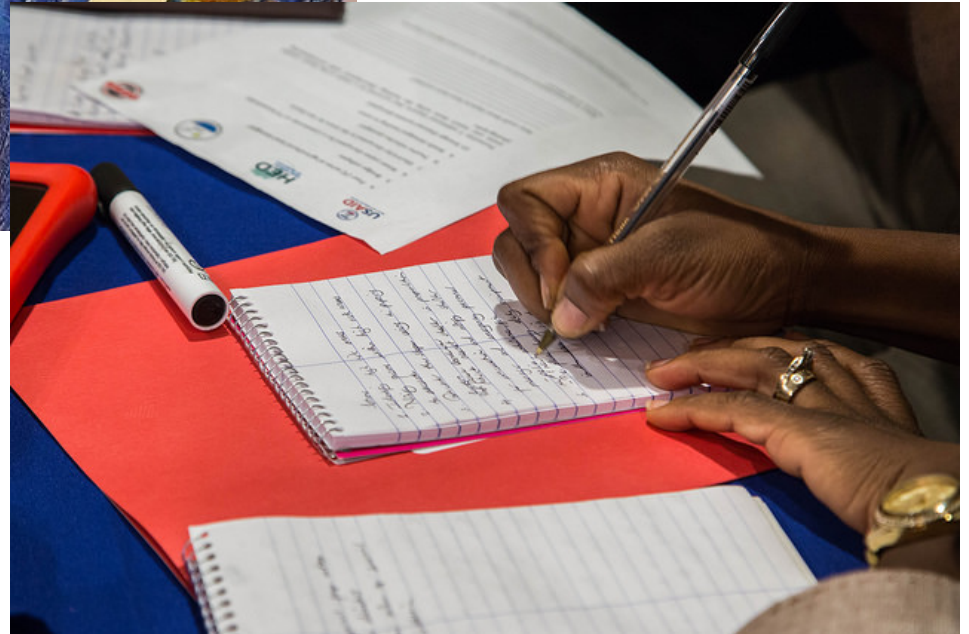

1. Share existing knowledge (particularly through case studies, webinars, etc.)
2. Generate new knowledge where community identifies it as lacking (ethics, valuation, etc.)
3. Fostering connections between and among climate information users, providers, donors, researchers

Get people around the table

Open new conversations
