**Comments from the United Kingdom— Approval by mail: Global Component of the Dedicated Grant Mechanism (DGM) (PPG) IBRD**

Dear colleagues

The UK is pleased to approve the request for a project preparation grant for the ***Global Component of the Dedicated Grant Mechanism***.

We reiterate our earlier comments regarding DGM design concepts and encourage Conservation International, in their support to the PAD and development of the workplan:

- To make clear how the DGM mechanism will work in alignment with FIP projects and other REDD+ capacity building efforts; and
- To ensure that expected results are achievable within the time and budget constraints of the DGM.

Kind regards,

Anna

**Comments from United States on DGM for Indigenous Peoples and Local  
Communities: Program Framework and Funding Proposal for the DGM Project  
for the Global Component**

Dear Patricia,

Thank you for allowing us to review this interesting project.

We have an initial question relating to the potential participants in the Global Component of the DGM. The project document is not completely clear on who the project participants might be (“...could include FCPF, ....”). Can we obtain clarification on potential participants?

Thank you for your attention.

Best,

Katie Berg  
U.S. Treasury Department
