

Transformational Change and Climate Finance: Moving from Emerging Concepts to Advanced Practices

*A Transformational Change Learning
Partnership Virtual Workshop*

May 25 – 26, 2021

Welcome and Language Interpretation Options

Welcome to the CIF TCLP's two-day workshop! Please select the "Interpretation" button at the bottom of the Zoom screen and pick English, Spanish, or French.

¡Bienvenido al taller de dos días de CIF TCLP! Seleccione el botón "Interpretación" en la parte inferior de la pantalla Zoom y elija inglés, español o francés.

Bienvenue à l'atelier de deux jours du CIF TCLP! Veuillez sélectionner le bouton «Interprétation» au bas de l'écran Zoom et choisissez Anglais, Espagnol ou Français.

Workshop Objective

How to catalyze and contribute to transformational change by addressing questions such as:

- Where can transformational change concepts and practices deepen our response to climate change challenges?
- Which key areas of practice do we need to develop further to advance transformational change?

A few technical reminders...

 The meeting is being recorded.

 Mute your microphone while others are speaking.

 Raise your virtual hand to contribute to the conversation.

 Allow everyone the chance to speak and listen actively to understand others' views.

 Chat directly to **Tess Wendel** or **Sarah Abramowitz** if you need technical assistance.

Tools We'll Use to Interact During Workshop

- Mural, a digital whiteboard for visual collaboration
- Slido, an interactive app for live Q+A and polling
- Gather Town, a virtual space where we can spend time together

3-minute Break

If you need interpretation services, please stay in the main room.

Conversation Café

Participants will break into three groups and speakers will rotate among groups to discuss three transformational change frameworks:

1. CIF TCLP Dimensions and Signals of Transformation
2. GIZ TransformABILITIES
3. GEF Systems Change Framework

Conversation Café Speakers

NANDINI'S CAFÉ

Begins with **TCLP Dimensions & Signals of Transformation**

MIKE'S CAFÉ

Begins with **GIZ TransformABILITIES**

NACIBE'S CAFÉ

Begins with **GEF Systems Change Framework**

JESSICA KYLE

Director of Climate Change and Sustainability, ICF

Session 2: Insights from the Field

Where can transformational change concepts and practices address climate change challenges?

Tuesday, May 25, 2021

Session 2 Objectives

- Identify transformational change concepts and emergent action in real-world case studies
- Distill insights on identifying dimensions of transformational change and how they support advanced transformation
- Build on case study insights by drawing on participants' experiences and knowledge
- Begin to identify what products and processes need to be further developed to support transformational change

Breakout Groups

Participants will select one of four breakout groups to join during Session 2 and Session 3:

1. Clean Energy (*stay in main room, with interpreters*)
2. Resilience
3. Landscapes
4. Just Transition

Clean Energy and Resilience Speakers

CLEAN ENERGY

**ADONAI HERRERA-

Session 4: Key Areas of Practice for Advancing Transformational Change

How can transformational change ideas be applied to future work?

Wednesday, May 26, 2021

Session 4 Objectives

- Identify the challenges, needs, strategies, and resources/opportunities related to moving different practices forward
- Brainstorm concrete ways transformational change concepts and frameworks can inform and support climate action initiatives
- Generate excitement among our new network of partners about integrating transformational change practices into our work!

Breakout Groups and Small Group Work in Mural

Participants will be invited to join one of five breakout groups:

1. Long-term Planning and Programmatic Approach
2. Actors and System Mapping
3. Integrating Transformation in the Project Cycle (*stay in main meeting room with language interpreters*)
4. Evaluation
5. Building Capacity

1 GET FAMILIAR WITH MURAL

1 **GET FAMILIAR WITH MURAL**

1 **Navigation**
The top panel allows you to zoom in and out of the mural and to pan across the mural.

2 **Add elements**
You can add elements from the mural to your workspace. Drag and drop elements from the mural to the workspace.

3 **Remove elements**
Click on an element in the workspace to remove it.

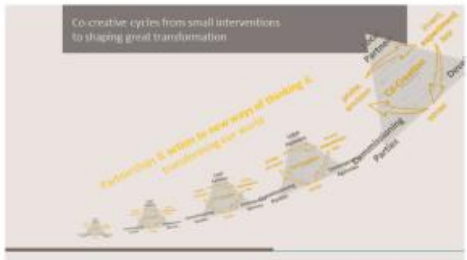

4 **Copy and paste**
Click on an element in the workspace to copy it. Then click on the workspace to paste it.

5 **Zoom in and out**
Click on the zoom in and out icons to zoom in and out of the mural.

6 **Reset view**
Click on the reset view icon to reset the view of the mural.

2

[Hold for title]
Share 3-2 graphics or frameworks (see references) that supports the brief presentations and the group's work. For example, the Project Cycle group would have a visual of the World Bank/IMD project cycle. We have some trial ideas on the graphics but can leave this area blank for now and then work with the presenters to identify/triage what graphic might be most useful to share.

Transformability	Transformability
Resilience The ability to absorb disturbance and reorganize while undergoing change so as to still retain the same or a similar function.	Adaptability The ability to adjust to new conditions.
Robustness The ability to maintain the same level of performance under a wide range of conditions.	Transformability The ability to create a new system when the current system becomes untenable.
Learning The ability to gain knowledge from experience and use it to improve performance.	Resilience The ability to absorb disturbance and reorganize while undergoing change so as to still retain the same or a similar function.
Substitutability The ability to replace a component of a system with another component without affecting the overall system performance.	Transformability The ability to create a new system when the current system becomes untenable.

3

What will it take to advance practice and impact through capacity building and learning practices in ways that catalyze, support, and contribute to transformational change?

Challenges/Needs
What needs must be addressed to support transformational change in the evaluative practice relevant to climate change? What challenges limit progress?

Strategies
What strategies and approaches are promising to advance evaluative practice relevant to climate change?

Resources
What resources, frameworks, and tools currently exist to support evaluative practice relevant to transformational change and climate change?

Opportunities
What specific opportunities do we see for developing resources, supporting experimentation, and catalyzing learning on evaluative practice to support transformational change through climate action?

Extra sticky notes

If you'd like to show agreement with a thought below, move a dot to that sticky note.

Working in Mural

- Breakout group participants will work together in a Mural board that is designed for their topic
- You will spend most of your time brainstorming challenges/needs, strategies, resources, and opportunities in your topic area
