Comments from Brazil—Approval by mail: Renewable Energy Mini-Grids and Distributed Power Generation Program (India, Indonesia, Philippines) ADB - CTF - Dedicated Private Sector Programs

Dear colleagues,

We believe that the comments provided by Germany are pertinent. In order to understand the potential impact and the conditions for this Program, we would need further information on financial products and terms, and more clarity on how CTF resources will be used (such information is expected for any country project that comes forward to the Committee, and the same applies in this case).

Best regards,

Marco Aurélio S. Araújo
