(Potential) Synergy with GCF

SREP Sub-Committee's Decision on Collaboration with GCF

The Sub-Committee invites contributor countries in a position to do so to make additional contributions to the SREP and invites the SREP pilot countries, in cooperation with the MDBs, to design and/or adapt investment plans and projects in a manner that enables access to other funding channels, in particular the GCF.

The Sub-Committee recalls its decision from its June 2016 meeting on the need to enhance cooperation between the SREP and other entities and mechanisms in the climate finance architecture, in particular the Green Climate Fund (GCF), through improved coordination at the country level led by the SREP focal points and GCF's national designated authorities, including in cooperation with MDBs when requested, for mobilizing funding and implementing investment plans.

What concrete steps could be taken to enhance SREP-GCF collaboration?
